TRIBUNAL PENALTY PROCEDURE

The Tribunal shall adopt these guidelines in assessing the particular alleged offence and appropriate sanctions for such an offence when the Tribunal finds a player guilty of an offence.

The Tribunal will categorise the level and severity of the offence by determining four (4) factors

- **Conduct** – whether the conduct was intentional or careless (refer below)
- **Impact/circumstance** - whether the impact was severe, high, medium or low (refer below)
- **Contact** - whether the contact was high, to the body, or to the groin. (refer below).
- **Potential to cause Injury**

CONDUCT

1. CONDUCT (INTENTIONAL OR CARELESS)

1.1 INTENTIONAL CONDUCT

Whether or not a Player intentionally commits a Reportable Offence depends upon the state of mind of the Player when he or she does the act with which they are charged. What the Player did is often the best evidence of the purpose they had in mind. In some cases, the evidence that the act provides may be so strong as to compel an inference of what their intent was, no matter what they may say about it afterwards. If the immediate consequence of an act is obvious and inevitable, the deliberate doing of the act carries with it evidence of an intention to produce the consequence.

For example, a strike will be regarded as Intentional where a Player delivers a blow to an opponent with the intention of striking them.

The state of a Player's mind is an objective fact and has to be proved in the same way as other objective facts. The whole of the relevant evidence has to be considered. If the matter is heard by the Tribunal, the Tribunal will weigh the evidence of the Player as to what their intentions were along with whatever inference as to their intentions can be drawn from their conduct or other relevant facts.

The Player may or may not be believed by the Tribunal. Notwithstanding what the Player says, the Tribunal may be able to conclude from the whole of the evidence that the Player intentionally committed the act constituting the Reportable Offence.

1.2 CARELESS CONDUCT

A Player's conduct will be regarded as Careless where it constitutes a breach of the duty of care owed by the Player to all other Players.

Each Player owes a duty of care to all other Players, Umpires and other persons (as applicable) not to engage in conduct which will constitute a Reportable Offence being committed against that other Player, Umpire or other person (as applicable). In order to constitute a breach of that duty of care, the conduct must be such that a reasonable person in the position of the Player would not regard it as prudent in all the circumstances.

Further, a Player will be careless if they breach their duty to take reasonable care to avoid acts which can be reasonably foreseen to result in a Reportable Offence.

2. IMPACT (LOW, MEDIUM, HIGH OR SEVERE)

In determining the level of impact, regard will be had to several factors.

- 2.1 Firstly, consideration will be given to the extent of force and in particular, any injury sustained by the Player who was offended against. A medical report may be provided to assist the Tribunal.
- 2.2 Secondly, strong consideration will be given to the potential to cause injury, particularly in the following cases:
 - intentional head-high strikes, such as those with a swinging clenched fist, raised forearm or elbow;
 - high bumps, particularly with significant head contact and/or Player momentum;
 - any head-high contact with a Player who has his head over the ball, particularly when contact is made from an opponent approaching from a front-on position;
 - forceful round-arm swings that make head-high contact to a Player in a marking contest, ruck contest or when tackling;
 - spear tackles;
 - driving an opponent into the ground when his arms are pinned; and
 - use of an elbow or raised forearm to strike an opponent.

The absence of injury does not preclude the classification of impact as Severe.

- 2.3 Thirdly, consideration will be given not only to the impact between the offending Player and the victim Player, but also any other impact to the victim Player as a result of such impact.

For example, where a victim player as a result of the impact from the offending player is pushed into the path of a fast-moving third player, the impact to the victim player may be classified as high or severe, even though the level of impact between the offending player and the victim player was only low or medium.

In addition, consideration will be given to the body language of the offending Player in terms of flexing, turning, raising or positioning the body to either increase or reduce the force of impact.

Low impact (which is the minimum impact required to constitute a Reportable Offence) requires more than just a negligible impact. Most Reportable Offences require at least low impact and a collision or incident involving negligible force will not ordinarily result in a charge.

- 2.4** In addition to the above, the following table provides a summary of applicable base level impact guidelines for Low, Medium, High & Severe Impact incidents:

Impact Guidelines	
Low	Minimal or no impact on the player - the Player continued to play the majority of the match and suffered no or minimal ongoing issues.
Medium	Clearly some impact on the Player, and / or the Player left the field for a lengthy period of time, and/ or some possible lower level ongoing treatment(s) required.
High	Major impact on the Player, and / or the Player was unable to participate in the remainder of the game, and / or major ongoing issues that require medical intervention and / or may miss some matches.
Severe	Major impact and serious injury to the Player, and / or likely to miss a significant number of matches.

Note – These are base level impact guidelines. The impact can be categorised as higher where there is the potential to cause serious injury.

3. CONTACT (HIGH / GROIN, BODY)

- 3.1** High contact is not limited to contact to the head and includes contact above the shoulders.
- 3.2** Contact to the Groin includes contact to the crease or hollow at the junction of the inner part of each thigh with the trunk together with the adjacent region and including the testicles.
- 3.3** Where contact is both High and to the Body, the Tribunal will classify the contact as High. Contact shall be classified as High or to the Groin where a Player's head or groin makes contact with another Player or object such as the fence or the ground as a result of the actions of the offending Player. By way of example, should a Player tackle another Player around the waist and as a result of the tackle, the tackled Player's head made forceful contact with the fence or the ground the contact in these circumstances would be classified as High, even though the tackle was to the body.

4. POTENTIAL TO CAUSE INJURY

- 4.1** Potential to cause injury must be factored into the determination of Impact, particularly in the following cases:
- 4.2** Intentional strikes, such as those with a swinging clenched fist, raised forearm or elbow;
- 4.3** High bumps, particularly with significant head contact and/or Player momentum;
- 4.4** Any head-high contact with a Player who has his head over the ball, particularly when contact is made from an opponent approaching from a front-on position;
- 4.5** Forceful round-arm swings that make head-high contact to a Player in a marking contest, ruck contest or when tackling;
- 4.6** Any contact that occurs when the Victim Player should not reasonably be expecting or is not reasonably prepared for contact (i.e. contact off the ball); and
- 4.7** Any dangerous tackle.

LEVEL OF OFFENCE

Once the level of offence has been determined it will be used in calculating the penalty.

Penalty reductions **may** be considered by the Tribunal, at its absolute discretion, for the following:

- Early guilty plea and/or genuine remorse shown by offending player
- Offending player has not been found guilty of any reportable offence within the last five (5) years in any match of a League affiliated with The Australian Football League (AFL).
